ARMSTRONG COLLEGE

Vol. XXI No. 1

Alfred Baker Elected Soph President

FALLIN EDITS "INKWELL"

At the first meeting of the "INKWELL", Don Fallin was unanimously elected editor. This new job is certainly apropos for Don, as he worked closely with last year's editor, Lloyd Adams, and is definitely familiar with the techniques of meeting deadlines and burning the midnight oil!

Don, a S.H.S. graduate, was most active in affairs around Armstrong last year. He was stage manager for the Masquers in two productions besides being a hard-working senator. Being Captain of the "Loafers", a member of the Intramural Board and the Newman Club, our editor was the chairman of the Interim Committee. So you see, the "INKWELL" is off to a very good start with so able an editor.

Don's staff is as follows:

Associate Editor: Betty Gignilliat. A graduate of the Savannah High School class of 1954, Betty worked on the S.H.S. paper, "THE BLUE AND WHITE". She is one of Armstrong's new sophomores having attended Averett College last year.

Managing Editor: Franklin McLean. Franklin, a freshman, attended Stauton Military Academy in Virginia. He was treasurer of his class and a Major on the Regimental Staff.

Girls' Sports Editor: Kay Dunlap. Kay attended Armstrong last year and worked with the Masquer's. She was also Co-Captain of the Slick Chicks.

Boys' Sports Editor: Tommy Doughner. A sophomore, Tommy is active in many clubs on the campus such as, the Newman Club, Loafers, and the Math Club. He is a graduate of the June '54 class of Benedictine.

Club News Editor: Cecil Pacetti. A '55 graduate of S.H.S., Cecil is very active in the Demolay Club and the Phalanx at the Y.M.C.A. He is the associate editor of the state Demolay paper.

GLEE CLUB NEEDS NEW MEMBERS

The Armstrong Glee Club is now organizing and preparing for its annual Christ concert. The immediate need, according to Mr. Persse, the director of the club, new members and all interested are asked to contact the director or come to the rehearsal. Rehearsals are held every Monday, Wednesday and Friday at 2:30 in the Hunt Bldg.

INTERIM COMMITTEE

The Freshmen had arrived... all two hundred of them!

It was not an unusual sight to find many Freshman scurrying around looking for different buildings and classrooms, inquiring about various clubs, rules and regulations, and asking an abundance of questions. It simply meant that the first fall quarter of Armstrong had begun College!

Thus the Interim Committee was formed, their job being to welcome new students and inform them about the activities around the College and to acquaint them with the Campus.

At the first Assembly, the Interim Committee had their chance at explaining "what is what" to the Freshmen.

Those on the committee are: Don Fallin, Gail Whittington, Ann Hale, Mary Mathews. Mr. Harry Persse is director of the committee.

A mock meeting of the Senate was presented at the following Assembly by the Interim Committee, solely to interest and acquaint the new student with the Senate.

To all the new students, the Interim Committee extends to you, the warmest of welcomes!

GEECHEE SPORTS LARGE STAFF

The student body need not harbor any qualms about this year's forthcoming 'Geechee, for the annual may boast of 11 who comprise the Editorial Staff as well as many others who make up the many diversified departments of a college year-book.

Carolyn Stacy is the Editor-in-chief and an able one at that. During her four years at Savannah High Carolyn attained not only scholastic honors in being in the Beta Club for tow years, but in addition she served as president of the Kappa Chi Club. Being an integral part of the Student

Council also contributed as being a comendable backdrop to her Editorship.

The other able and industrious member of the staff are as follows: Randy Bradford Associate Editor; Jerry Meuller, Business Manager; J. B. Goff, Assistant Business Manager; Club Editor, Ann Hale; Freshman Editor, Gene Pierce Sophomore Editor,

Julia Brannen; Faculty Editor, Mardy Miller; Sports Editor, Evelyn Mallis; Homecoming Editor, Frances Dunaway; Beauty Editor, Patsy Duffy; Art Editor, Tim Fitzsimmons.

PHALANX

The local "Y" Phalanx Fraternity is an organized group of young men 18 to 25 years of age, out of High School; interested in bettering themselves as well as helping others develop well-rounded personalities through social, religious, fraternal and service activities. While the Fraternity itself is not solely a social fraternity, it is well established in most of the larger Universities and colleges in this country, as well as in the local Y. M. C. A.'s.

The young men who are now beginning to move into a new experience, that of attending college or starting into the business world, should be feeling a growing pride in their influence in the community, as small as it might seem to them now.

It is natural to want to know more about the community in which we live; to want to discuss mutual subjects of interest, matters that concern us as young men who are affected by local, state, national, and international problems and happenings, to be a part of a group our own age to enjoy the fellowship and social activities of such a group.

The Phalanx program has been outlined for the coming year, to include You -- formation of co-ed social groups at the YMCA, a choral group, participation in all of the physical activities at the "Y" to include teams in volley ball, basketball, swimming, and track, forums on many of the subjects which affect us as young men and women, led by informed leaders; social outings, dances, participation in many of the Young Adult programs to be offered at the "Y" -- including dancing lessons, bridge, golf, fishing, personal defense, photography, and

THE MASQUERS

The Masquers will make their first public performance of the current school year on October 19th during the student assembly. At that time a new play written by Masquer's director Ross Durfee will be presented on the auditorium stage. Plans for the first major production are underway Squaring the Circle, a Russian farce, has been chosen to inaugurate the season and will be produced in mid-November. Future plans are not definite at the moment but will include experimental theatre work in addition to the major productions that are presented once each quarter. The Masquers invite all interested students to join up and help fill the varied jobs that are available. Officers for the Masquers will be elected following mid-term.

Radio Workshop

New expansion of production facilities will make possible greater opportunities for learning and practicing radio broadcast techniques to the members of the Radio Workshop. A control room - studio physical layout is being completed which will lead to the development of a standard professional production facility. New recording equipment has been secured, and plans for active production await only their installation and integration. Opportunities will be afforded to actors, directors, technicians and writers. A series of half hour dramatic programs is being considered, and further plans for the transmission of these programs through the facilities of local broadcasting stations are being formulated. Interested students are urged to see Mr. Durfee for further information. Officers for the Radio Workshop will be elected following mid-term.

Membership in Phalanx is open to any young man interested, and more information may be obtained by calling 3-7706, or by stopping by the "Y" and speaking to the Young Adult Secretary.

FRESHMAN BOYS OUTNUMBER GIRLS TWO TO ONE

An unbelievable precedent has taken place in the 1955 Armstrong College Freshman Class. 138 boys have enrolled compared with just 51 coeds. Of course no one is complaining - the registrar's office in general and the girls in particular - however, this ratio isn't believed to have been surpassed even in the days of the veterans!

Our Freshman Class also has the distinction of enrolling 14 more students over last year's class. There has been this trend in enrollment increase for the past four years and certainly an encouraging one for the opportunities here at A. C. are vast and unlimited. It is only up to us its students, to dig deep into its well of reserves. The "old students" welcome you freshmen and any other new students to its portals and sincerely hope that this will be both an enjoyable and profitable year for you. With such a fine beginning we are sure to make this, the 1955-56 school year, a memorable one. Good luck!

NOODLE ANNOYERS WEIGH'S & MEASURES

1 Identical cups of tea and coffee are filled to the same level. A teaspoonful of tea is transferred to the coffee cup. The mixture is then thoroughly stirred, and one teaspoonful of it is transferred back to the teacup. Is there more tea in the coffee cup than there is coffee in the teacup? Maybe it's too easy.

2 A simple Noodle Annoyer that's short and sweet: A brick weighs six pounds and a half a brick. What is the weight of a brick? And please don't say nine pounds.

TIP OF THE "INKWELL" TO.....

the registrar's office for handling a "speedy" registration..... the faculty for their patience with 30 students in a classroom made for 20..

During the year the boys play touch football, tennis, table tennis, basketball, softball, and swimming. The football schedule and the intramural managers will be published in the next issue of the Inkwell.

Remember, it takes a sport to be a sport. So fellows, Play Sports!

FRESHMEN ONLY!

As I sit in class today,
The students are so still;
Or occasionally one might say,
"I have had my fill."

As I look around the room
And inhale that text book smell,
All expressions are of gloom,
They are waiting for the bell.

Sometimes I don't think it can
be done,
But we do it somehow.
I guess we know we'll have our
fun,
For class is over now.
